

The 18th IEEE International Conference on Ubiquitous Computing and Communications (IUCC-2019)

Shenyang, China

21-23 October, 2019

CALL FOR WORKSHOPS

General Information: Workshops will be held together with the main conference IUCC 2019 during the same dates and venue. We invite you to submit workshop proposals on any topics related to High Performance Computing and Communications to the Workshop Chairs. The purpose of these workshops is to offer to researchers a good opportunity to present their work in a more focused way than the conference itself and to obtain feedback from an interested community. Workshops that focus on new and emerging topics, or on applications and industry contributions are particularly encouraged. In general, a workshop takes one day, although multiple-day and half-day workshops are welcome.

Proposal Submission: A workshop proposal should contain at least:

- Title of workshop: International workshop on ...
- Workshop chairs/organizers: Names, Affiliations, address, e-mail
- Brief description of the workshop (several hundred words)
- The workshop tentative deadlines and website if set up already
- Prior history of this workshop, if any.

General Rules for the Organizers: The organizers will be responsible for the advertisement and promotion of the WS/SS and the conference. The organizers and chairs of the workshop shall have full control on the call for papers, forming of program committees, review and selection of papers as well as planning the workshop program. All papers submitted to workshops should be original previously unpublished research papers written in English, of up to 6 pages (or 8 pages with over length charge) including figures and references using IEEE Computer Society Proceedings Manuscripts style (two columns, single-spaced, 10 fonts). Once accepted, the paper will be included into the IEEE conference proceedings published by IEEE Computer Society Press (indexed by EI). At least one of the authors of any accepted paper is requested to register the paper at the conference. Free hotel accommodation will be given to the leading chair of each workshop with 8 or more registered papers.

Important Dates:

Workshop Proposal:	15 April 2019
Workshop Notification:	Within one week after receiving a proposal
Conference:	21-23 October 2019
